

Prateek mishra

Junior Web Developer

I am a junior web developer with expertise in frontend development and a strong desire to learn backend technologies. Seeking an internship opportunity, I aim to apply my frontend skills while expanding my knowledge in server-side programming, databases, and API integration. As a proactive problem solver and team player, I am committed to delivering high-quality code and actively participating in project discussions. With a passion for continuous learning, I am eager to contribute to meaningful projects, grow professionally, and make a positive impact as an intern in a web development team.
